## Summary

TypeScript & Next.js Developer | Web Development Enthusiast | Generative AI Explorer

Hi there! I'm a passionate TypeScript and Next.js Developer, focused on creating scalable, high-performance web applications that prioritize both seamless user experiences and maintainable codebases.

## Technical Expertise

- Frontend Mastery: TypeScript, React, Next.js
- Backend & Tools: Node.js, Sanity, ShadCN, Stripe integration for eCommerce
- SEO & Performance: Building server-side rendered (SSR) and static sites for optimal load speeds and discoverability

### Code Philosophy

With a solid foundation in JavaScript and TypeScript, I write clean, efficient, and type-safe code, tailored to meet project-specific needs and industry best practices.

### Generative AI & Robotics Enthusiast

- AI Agents: Currently learning Python, LangChain, and LangGraph, advancing to AGI Level 3 for complex AI agents.
- Robotics & AI: Exploring automation to bridge the gap between software and real-world applications.

### What Drives Me?

I thrive in collaborative environments where innovation, knowledge-sharing, and continuous learning are core values. Whether it's

refining application architecture or experimenting with the latest AI algorithms, I'm here to create impactful solutions that drive innovation and inspire change.
